Construction News

The Gloucester Manton Library hopes to announce the reopening of the Community Room **by the end of May or beginning of June**. We are excited to offer a more comfortable and up to date space for library and community organizations events.

Start Date History :

Many library friends have asked about the start dates for the construction projects at our libraries.

At the **Harmony Library**, if you look out the back French doors, you will see the test digs for our Community Room addition. Once the soil report is written, we will be able to go out to bid

At the **Gloucester Manton Library**, the renovation of the basement Community Room should begin as early as **March 3, 2025**. This means that most of the programming at the Gloucester Manton Library will have to be paused during the project. The ongoing Fearless Art Group will continue to meet at the Harmony Library. Parking will be affected and noise levels will be disruptive at times. Planning is underway to address these and other challenges.

We appreciate your patience and will keep you informed of other changes in our services.
